TIPS BELAJAR DENGAN LEBIH EFEKTIF

LAPANGKAN FIKIRAN

Pastikan anda mengambil rehat sekurang-kurangnya 5 minit setiap setengah jam ataupun sejam. Ini boleh membantu peredaran darah ke otak anda, pada masa yang sama boleh memberikan ketenangan kepada fikiran anda. Keadaan tersebut boleh meningkatkan daya ingatan dan tumpuan anda.

LAPANGKAN FIKIRAN

BUAT NOTA

BUAT NOTA

Ambillah nota semasa dalam sesi pembelajaran. Untuk dapatkan keberkesanan yang lebih dalam menyalin nota dalam kelas, Tanya berkaitan dengan nota yang anda salin. Dapatkannya jawapannya dan salin sebagai nota kaki kepada nota asal anda.

ULANGKAJI PELAJARAN

Semasa mengulangkaji pelajaran, mulakan dengan subjek yang anda rasa sukar terlebih dahulu. Hal ini untuk memberikan seluruh tumpuan yang masih segar anda kepada subjek yang anda perlu tekankan terlebih dahulu. Kemudian subjek-subjek yang anda rasa agak senang untuk skor.

ULANGKAJI PELAJARAN

KUMPULAN BELAJAR

KUMPULAN BELAJAR

Anda digalakkan untuk membentuk satu kumpulan belajar dimana anda semua boleh berkongsi apa yang masing-masing dapat semasa menjalani kelas. Anda boleh membahagikan ahli kumpulan untuk menerangkan mana-mana topik kepada semua ahli.

TIPS TAMBAHAN PEMBELAJARAN EFEKTIF

- 1** Selain menghafal, anda perlu mengetahui/menguasai apa yang anda hafal tersebut, sehingga anda boleh menerangkannya kepada rakan-rakan yang lain.
- 2** Belajar dengan orang yang rajin dan pintar boleh memberikan anda semangat. Seeloknya jadikan mereka sebagai rakan belajar anda.
- 3** Rajin-rajinlah bertanya kepada pensyarah anda bagi setiap topik yang dipelajari supaya lebih difahami.
- 4** Belajar satu subjek dalam sesuatu masa. Elakkan bercampur aduk dengan subjek yang lain.
- 5** Berikan rehat kepada diri sendiri setelah anda berhasil mencapai sesuatu, seperti menyiapkan latihan ataupun mendapat keputusan yang cemerlang.
- 6** Jangan menangguhkan kerja, belajar dan ulangkaji pelajaran pada awal waktu untuk mengelakkan daripada tidak sempat mengulangkaji pada saat akhir.
- 7** Kebanyakan buku teks mempunyai "*chapter review*" pada permulaan topik. Jadikan ia sebagai satu panduan akan apa yang anda perlu kuasai.
