11.2 The programme must be reviewed only after a needs assessment has indicated that there is a need for the programme to be offered.

(This standard must be read together with standards 1.2.2 in Area C page F and 1.2 in Area C page 20)

11.3 Program content and input for the programme must include and be relevant to the program and sector demand for the program.

Program content and input for the department has considered recent and sector demand for the program.

Industry training from the expert faculty members were also made from 'The Future of Asia Region and The Global Economic Trends Report (Q2) and 2019', 'The Asia context, relevance were also made from the Labour Force Survey (LFS) and Department of Statistics Malaysia (DOSM).

Several discussion seminars were conducted with industry representatives and [redacted] between February 2020 and October 2020 to get their feedback on the proposed programme. The following is the summary of their feedback. According to them, this is an innovative program that meets the demands of the 21<sup>st</sup> century workforce and in line with the requirements of the labor employment trends, such as:

- It encourages interdisciplinary elements of work and learning without being obstructed by the existing curriculum structure of the faculty.

Appendix 11.2 (SWEP Tuning)

DR WAN AIDA WAN YAHAYA

ADD: Insert content of this file. It includes content for which content will play.

- It equips graduates (covering) 21st of centuries from various disciplines or various areas of specialization.
- It provides cultural and disciplinary diversity in education.
- It prepares students for a variety of range of learning.
- This encourages the learning process through research methods.
- It uses scientific methods as opposed to scientific facts.
- It provides students with a platform to work closely with the industry.
