Classes in Turnitin

1. **Creating** classes on Turnitin

- Created by an instructor.
- Allowing an instructor and students to access and use the services available at their institution.
- The class is used by the instructor **to organize students and student submissions into groups**
- New classes should be created each semester

Classes in Turnitin

Create a new class

To create a class, enter a class name and a class enrollment password. Click "Submit" to add the class to your homepage. For a master class, you will also need to enter a TA join password.

Class settings

* Class type	<input type="text" value="Standard"/>
* Class name	<input type="text" value="Your class name should be between 2 and 100 characters long."/>
* Enrollment password	<input type="text"/>
* Subject area(s)	<input type="text" value="Select subject(s)"/>
* Student level(s)	<input type="text" value="Select student level(s)"/>
Class start date	25-Nov-2014
* Class end date	<input type="text" value="30-May-2015"/>

No classes have been added to this account. To add your first class

FAKULTI PENDIDIKAN

Class created

Congratulations! You have just created the new class: AM228

If you would like students to enroll themselves in this class, they will need both the enrollment password you have chosen and the unique class ID generated by Turnitin:

Class ID **9104825**

Enrollment password **abc123**

Note: Should you ever forget the class ID, it is the number to the left of the class name on your class list. You can view or change your enrollment password by editing the class.

Click the class name to enter the class and get started creating assignments.

RINGKASAN (ABSTRACT)

Sistem pelaporan pendidikan kurikulum Outcome Based Education-Student Centered Learning (OBE-SC) Institut Pendidikan Negeri (IPN) secara luas telah dikembangkan untuk memudahkan penyediaan laporan OBE-CDL (CLOSING THE LOOP) oleh pemangku yang mengajar di IPN.

MUJAHID DAN PENYELESAI:

Sebelum sistem dibangunkan, proses penyediaan laporan OBE-CDL (CLOSING THE LOOP) dilakukan secara manual oleh pemangku. Proses manual ini termasuklah penyediaan laporan analisis jurang ENT (ENTRANCE SURVEY (ES)), SURV dan PELAJA (STUDENT SURVEY). Laporan tersebut perlu dikumpul daripada beberapa sumber, diarahkan dan dimasukkan ke dalam template laporan OBE-CDL oleh pemangku. Proses manual ini telah menambahkan pemangku kerana mengambil masa dan cenderung melibatkan kelesakan.

Dengan adanya sistem ini, laporan laporan yang dihasilkan akan dihasilkan dan diarahkan secara automatik oleh sistem tanpa melibatkan proses manual oleh pemangku. Selain, laporan OBE-CDL yang telah dihasilkan dapat dikumpul mengikut tarikh dan program dengan lebih cepat dan tepat.

SAMBAN DAN KADANGAN

Sumber laporan ES, SURV dan SPK diambil daripada dua sistem utama secara automatik, manakala formula perangka prestasi berdasarkan formula daripada LIME.
